TOPICS AT THE CAPITAL.

[By Telegraph to the Pittsburgh Gazette.]

CASE AGAINST SECRETARY STANTON.

The New York *Herald's* special says: The case of Smithson against Stanton, on a charge of false imprisonment, if it can be brought to the test of an argument, promises to solve many of the doubts which surround the question as to the extent to which an official of the Government has the power to seize the persons and property of individuals without due process of law. Messrs. Hughes, Denver and Peck have the case in hand, and in March last made a motion in the District Court to require the defendant to furnish the originals of certain letters, papers and proceedings of the Court Martial. Mr. Stanton, notwithstanding the readiness of his Attorney to comply, has thus far obstinately refused the request to allow the originals to be seen, though copies are freely offered. The attorneys for the plaintiff, however, are not willing to receive these, as they wish to discover the authenticity, particularly of the treasonable letters alleged to have been written, under the assumed name of Cables, by Smithson. These letters, as they appear in the pleas of defendant, contain information respecting the numbers and movements of the garrison in and about Washington in the first year of the rebellion. Upon this ground Smithson was arrested and confined in Fort Lafayette. After some time he was released, and after that was again arrested and tried by Military Court and sentenced to five years' imprisonment at Albany. After a brief confinement he was again set at liberty by a pardon from the President. During these occurrences it is said that a Government detective, upon alleged authority from the Secretary of War, turned the wife and children of Smithson out of their house, which was occupied by officers of the Government. The case has thus far been postponed out of courtesy to the opposite counsel, but the attorneys for the plaintiff have now determined to press their motion for oyer and inspection, and upon receiving an order of the Court to the effect, will proceed at once either upon the merits of the case, or, in event of a continued refusal without giving sufficient legal reasons to produce the desired original letters, will move to set aside the justification set up by the defence and ask for an order for contempt of court against Mr. Stanton.

SHERMAN'S BILL TO TAX BONDS.

The *Tribune's* special says: Wall street is in a tremor over Senator Sherman's bill, and communications by the score have been sent to members of Congress protesting against the clause providing for the taxation of bonds, and objecting to Sherman's bill in general. From a canvass of the House, however, it may be positively stated that a majority are in favor of that section of the bill, and though the law says that they shall not be subject to State or municipal taxation, the statute no where provides that they shall not be liable to taxation by Congress if deemed advisable. There is a very strong disposition to subject them to taxation now, and before the final adjournment of the present session takes place a bill effecting that purpose will undoubtedly be passed.

THE WORD "WHITE."

There is considerable discussion on the District suffrage bill, striking the word "white" from the laws of the District of Columbia, and allowing negroes to sit on juries, which was passed some days ago, but which had not been sent to Congress by the President within ten days as prescribed by the law. The adjournment having taken place before the expiration, the President and his friends claim that the law is now virtually dead, and that Congress will have to re-pass the measure if they wish to put it on the statute book. But this is a mistake, as according to all the precedents the tenth day will not have expired until Tuesday, January 7th, 1868. The interval is only a recess of Congress, and not an adjournment.

Another correspondent says:

Should a majority of Congress adhere to the position taken by many since recess concerning the status of the bill striking the word "white" out of the laws of the District of Columbia, a conflict between the President and the two Houses seems inevitable. Several members of the House, among them Speaker Colfax, assert that the bill has become a law by the failure of the President to veto before the expiration of ten days. When the Constitution speaks of adjournment, these men argue it does contemplate a recess of the Senate and House, and therefore the veto power is not applicable in the present case. President Johnson takes the opposite view. He holds that Congress will have to pass the bill again and give him a fresh opportunity to veto it, because they did not remain in session long enough to allow him to send in his veto. He says that Congressmen have put a false construction on the constitutional clause in regard to the veto power, and he will not accept it as far as his action is concerned.

SANDWICH ISLANDS TREATY.

The strongest and best arguments urged in favor of the ratification of the reciprocity treaty with the Sandwich Islands is, that while the United States would lose $150,000 a year in sugar revenue, she would secure to herself the freedom of the islands, their use for all practicable purposes, populate them with Americans, and have a fair pretext for resisting their occupation by England or France as an appendage of those crowns.

BOUNTY CLAIMS.

The *Times* special says: The House Special Committee, to inquire into the cause of delay in settling additional bounty claims, find that the total number of claims filed up to December 1st, 1867, was 412,000; of these 273,000 remain unsettled. The delay arises in great part from the lack of force employed, and the Committee report that all has been done which could be expected of a force so much reduced. It is very evident from the report that the work of retrenchment in some of the offices here has been pushed to a point where the public business is suffering by it, and especially the interests of nearly three hundred thousand soldiers. The Committee will recommend a bill authorizing the employment of an additional force, and to pay duplicate checks upon evidence of the loss of the originals.

BRITISH COLUMBIA.

Captain Emmons, of the United States steamer Ossipee, writes to the Navy Department, from British Columbia, concerning the condition of affairs in that colony, and also enclosing some statistics regarding the coal and fishing trades, which are gradually increasing in size and importance. The chief feature of information communicated by Captain Emmons is the discontented state of the people in British Columbia. Large numbers are making strenuous efforts to have the colony annexed to the United States, and a movement in this direction has received fresh impetus of late, by the blundering and mismanagement of officials sent out to take charge of affairs by the British Government. Memorials are being circulated through the colony praying the home government that the colony may be allowed to dissever their connection with it, and put themselves under the protection of the United States.

A CLAIM AGAINST RUSSIA.

A claim of private parties against the Russian Government, for five hundred thousand dollars, has been presented in such a way to the House Committee on Foreign Affairs as to cause considerable perplexity among its members, and great annoyance to Mr. Seward, who is severely blamed for making no provision in the late treaty to protect the rights of American citizens, although he was not only aware of the existence of these claims, but had given the Russian Government, though Mr. Clay, to understand that the State Department considered them just. The facts are as follows: Toward the close of the Crimean war W. B. Perkins, of Massachusetts, made a contract with the Russian Government for one hundred and fifty-four tons of American service powder, and thirty-five thousand stand of rifles, the price agreed upon being a half million of dollars. The first contract was made by Baron Stoeckel, Russian Minister, in person. The contract for arms was made by his advice, through a Russian ordnance officer, sent out by his government for the purpose. The powder and arms were inspected, and the powder loaded on ship board, according to agreement. At this time the war closed, and the Russian authorities refused to take the material or to pay for it. The matter was soon brought to the notice of the State Department, and Mr. Seward at once wrote a long letter supporting the claim. The matter is being strongly urged upon the attention of the Committee on Foreign Affairs, with a view to secure the withdrawal of five hundred thousand dollars in the appropriation for Alaska. If ignored by the Committee, the matter will be fully discussed in the House. Mr. Seward is terribly troubled at this turn of affairs, and is doing all in his power to have the questions considered separately from that of payment for Alaska.

WORTHY OF COMMENT.

There has been considerable commotion in Radical circles over the action of the Virginia Convention in declining to ask for continuing the Freedmen's Bureau, the resolution not having commanded even the whole colored vote.

THE FENIANS.

Representatives of the Fenian interest are urging the State Department and the President to recommend Congress to demand that reparation shall be made by the British Government for the imprisonment of America citizens in England.

NO BACKWARD STEP.

A letter from Schuyler Colfax, dated December 2d, to Thomas W. Conway, of New Orleans, is published, in which he says: "You need not fear that Congress will take any backward steps in reconstruction."

CASHIER RESIGNED.

A. W. Wyman, Assistant Cashier in the United States Treasury, resigned, to take effect the 1st of July next. He goes into the banking business at Omaha.

THE WHISKEY MEN

are reported to have become alarmed at the exposure of their movements.

SOUTH AMERICA.

The War in Paraguay—Sanguinary Fighting—Conspiracy on a Coolie Ship—Ravages of the Small Pox—Earthquakes at St. Thomas.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, Dec. 23.—The steamer North America brings Rio Janeiro dates to Nov. 25th.

The war in Paraguay continues. On October 21st two thousand Paraguayans, (cavalry,) who sallied from Humita to pasture their horses, were attacked by four thousand Brazilians, and though they fought desperately were routed with the loss of six hundred dead and one hundred and fifty prisoners, and pursued to the entrenchments of Humita. The victors lost one hundred and twenty-five killed and wounded.

Several smaller fights occurred during the following week, in which the allies were successful. On the 28th Lopez's cattle depot, at Rincowde, Las Ovajas, was stormed by the Brazilians with the loss of three hundred and seventy men. The defenders lost two hundred and fifty men and one thousand five hundred cattle.

On the first of November the Paraguayan works at Fayi were assaulted and the garrison, eight hundred strong, routed with the loss of five hundred killed and sixty prisoners. Of three Paraguayan steamers which took part in the defence, one was sunk and one burned by the allied fire and the third escaped in a crippled condition. The loss of the victors was only thirty. On the third the Paraguayans in turn made a dash on the extremity of the allied line, at Turyity, with six thousand men, and captured three redoubts. They followed this up by an attack on the polygon, a strong fortification. Baron Porto Alegera collected two thousand men and disputed the Paraguayan advance, which was gallantly made and finally repulsed in the evening by the arrival of some cavalry, which charged the Paraguayans, causing them to abandon the capture of the redoubts and two of the guns taken therein and retreat to their own lines. The loss of the allies was six guns and one thousand one hundred killed, wounded, &c. Loss of the Paraguayans two thousand four hundred killed and prisoners, of whom but one hundred and fifty-five were prisoners. The number of wounded is unknown.

The Anglo Brazilian *Times* says: The two great victories of the Brazilians before San Salona have ruined the Paraguayan horse, and rendered it impossible for Lopez longer to contest the possession of the open country with the powerful allied cavalry. The capture of Rincowde has deprived him of his cattle station and herds, while the arriving of the allies at the bluff at Tayi has shut the last way, and he must dribble through the paths of the Gran Chaco. Thus he must needs rise or fall with the sole resources gathered within his fortress, although he doubtless will assail again and again, with the energy of despair, the two extremes of the allied line at Tayi and Turyity. The nature of the ground is all to the advantage of the allies. Meantime, by being cut off from outside aid, his resources must lessen daily, while the allied reinforcements now average two thousand five hundred per month, and they have the world for supplies.

The cholera has disappeared from the army of the allies.

The ram Stonewall left Rio Janerio November 12th.

A Peruvian exploring expedition, under Admiral Tucker, had examined the rivers Pachitic and Ucayali and reached Squitos, whence they would descend the Amazon to Peru.

The small pox had killed three thousand one hundred and sixty-eight persons in the province of Matte Grosso, up to September 26th. Two thousand two hundred died in the town of Cuyaba alone.

The United States steamer Pawnee, at Bahia, had many cases of small pox among her crew. By consent of the authorities the sick were placed in hospitals on shore.

A conspiracy was discovered among the crew of a Portugese Coolie ship to kill the captain and others who refused to join them, turn the vessel into a pirate, and finally sell her in the Pacific. Seven of the conspirators were placed in irons and subsequently delivered to the authorities. While in irons the eighth jumped overboard and was drowned.

The North America left St. Thomas on December 16th, and reports the excitement occasioned by the late earthquakes still continued. On December 12th they experienced another heavy shock.

The Brazilian Minister to the United States, Senor Gonzales De Magolhoens, arrived in the North America.

THE TACK CASE.

[By Telegraph to the Pittsburgh Gazette.]

PHILADELPHIA, December 23.—Attorney-General Brewster, counsel for Tack Brothers, was ready to go on with the argument but District Attorney Mann, counsel for O'Connor, said he was engaged elsewhere. The argument was postponed till Friday next. Attorney General Brewster took occasion to inform the Court of the publication made in two of the Pittsburgh papers a few days ago of the private telegrams of Tack Brothers, and said he intended holding the prosecutor in this case responsible for their publication. He denounced it as a breach of decorum and an outrage on the rights of citizens and an insult to the Court. Judge Ludlow said that if the publication had gone beyond that of giving to the public telegrams that had been produced in evidence, that it was a breach of privilege, and perhaps under the circumstances would be a contempt of the Court; but as this was done in Pittsburgh, he could take no action in the matter, as it was out of his jurisdiction.

NEW YORK

GREAT BRITAIN.

FENIANISM—FEELING SUBSIDING.

LONDON, Dec. 23.—Fenianism still engrosses a share of public attention, though the excitement caused by the recent outrage has pretty much died out.

AMELIORATION OF THE CONDITION OF THE IRISH.

There is a wide spread and increasing feeling favorable to the amelioration of the condition of the Irish, as the most effective means of suppressing Fenianism.

The *Times* strongly favors this idea, and hopes and believes the next session of Parliament will be occupied with the consideration of Irish affairs.

POLICE OF LONDON INCREASED—CLERKENWELL OFFENDERS.

LONDON, Dec. 23—*Evening.*—The regular police force of the metropolis has been largely increased.

Timothy Desmond and Jerry Allen, the alleged perpetrators of the Clerkenwell explosion, were brought before a magistrate to-day and underwent a preliminary examination, at the close of which they were remanded to jail.

ITALY.

CONGRATULATION UPON GARIBALDI'S DEFEAT.

ROME, December 23.—The Pope in an allocution congratulated his hearers on the defeat of Garibaldi and the preservation of the Holy See from great danger.

ROME THE CAPITOL OF ITALY.

FLORENCE, Dec. 23.—The National Parliament will, at an early day, vote to re-affirm, in a solemn manner, its declaration that the City of Rome belongs to Italy, as the Capitol of the nation.

RESIGNATION OF THE CABINET.

In consequence of the adverse vote at the conclusion of the debate in the House of Deputies, last week, the members of the Cabinet have tendered their resignations to the King, but await the judgment of his Majesty on their acts. The new Ministry, it is reported, will probably be organized under Marshal Durando.

PREMIERSHIP OF ITALY.

PARIS, December 23—*Evening.*—It is rumored that Ratazzi will resume the Premiership of Italy, and will form a new cabinet hostile to France.

PROBABLE RETURN OF FRENCH TROOPS TO ROME.

The French Government is seriously considering the necessity of ordering the troops of the French expedition remaining at Civita Vecchia to return to Rome.

POLITICAL ARRESTS.

M. Accotas and other members of a secret politics' society, which held its meetings in this city, have been sentenced to imprisonment.

FRANCE.

ABROGATION OF THE SEPTEMBER CONVENTION.

PARIS, December 23.—The Governments of France and Italy have commenced negotiations for the abrogation of the September Convention, with the understanding that any agreement they may arrive at in the matter shall be submitted to the approval of the other powers of Europe.

ANOTHER COMPLICATION.

The Italian Parliament, by a recent vote, refused to pay the interest on the debt of the provinces formerly belonging to the States of the Church, which debt was assumed by Italy when those provinces were annexed. The French Government has sent a dispatch to Florence protesting against this action of the Legislature.

DENMARK.

TRANSFER OF WEST INDIES.

COPENHAGEN, Dec. 23.—The question of the transfer of the Danish West India Islands to the United States will be submitted to a popular vote of the inhabitants of those colonies in January.

TERRIBLE MURDER.

A Congressman Killed by his Insane Son.

[By Telegraph to the Pittsburgh Gazette.]

MARYSVILLE, O., Dec. 23.—Hon. C. S. Hamilton, Republican Member of Congress from the 8th District, Ohio, was brutally murdered by his son in a fit of insanity, on Sunday morning, by being struck on the head with an axe, at this place. Frenzied with blood, the son returned to the house, and succeeded in inflicting seven wounds upon a younger brother before he could be secured. He is now a hopeless, raving maniac. Mr. Hamilton had just returned from Washington.

Rights of Naturalized Citizens.

[By Telegraph to the Pittsburgh Gazette.]

ROCHESTER, December 23.—A large and enthusiastic meeting of citizens was held to-night to consider the rights of naturalized citizens abroad. Hon Henry D. Fish, Mayor, presided. Several speeches were made and resolutions adopted calling on the Government to define the rights of adopted American citizens, and demand the immediate unconditional release of those held in durance by the government of Great Britain.

Sentence Remitted.

[By Telegraph to the Pittsburgh Gazette.]

AUGUSTA, Dec. 23.—General T. W. Sweeney, who was tried by Court Martial, and suspended from rank and pay for six months, has had the sentence remitted by order of the President, and been ordered to report to General Pope for duty.

Entertainment by the New Captain General—Offer to Lease St. Domingo (Not Samana) to the United States—Gen. Palanco Killed in St. Domingo.

[By Telegraph to the Pittsburgh Gazette.]

HAVANA, December 22.—By invitation, all the foreign Consuls visited the new Captain General Lersundi, and were entertained with unprecedented hospitality.

Senor Pujul, Envoy from St. Domingo to the United States, remains at Santiago. He was expected here on Saturday. It is reported he is the bearer of an offer to lease the city of St. Domingo, not Samana, to the United States for ninety-nine years for the annual payment by the United States of $300,000.

The Dominica Chambers refuse to approve the loan negotiated by the Government at Paris.

Mr. Savage, Consul General of the United States at Havana, has received a confidential telegram from the American Consul at Santiago De Cuba, in consequence of which he had sent a dispatch to Secretary Seward, advising him to defer the purchase of St. Thomas.

In an engagement with the Baezists in St. Domingo General Palanco was killed and buried with grand funeral ceremonies at the Capital. The Baezists have relinquished Porto Plata, but are marching onward.

HAVANA, December 23.—The city was illuminated to-night in honor of Lersundi.

Advices from Venezuela state that General Guzman Blanco has been appointed Ambassador to England and France. Many political arrests had been made by the government. The merchants of Venezuelain seaports subscribed a large amount for the sufferers at St. Thomas. Intelligence from Porto Rico represents earthquakes still felt on portions of the Island.

GEORGIA.

The State Reconstruction Convention—No Funds to Pay Members can be Raised—A Stormy Session.

[By Telegraph to the Pittsburgh Gazette.]

ATLANTA, December 23.—The Convention met this morning and immediately took a recess till three o'clock this afternoon, in order to give the Finance Committee an opportunity to negotiate a loan to pay the expenses of the Convention.

The afternoon session was exceedingly stormy. The Finance Committee failed to secure a loan and reported an ordinance to authorize a further effort, which was defeated, on the ground that nothing should be done.

The report of the Commissioner, sent to Milledgeville, to draw $40,000 from the State Treasury, was received. It says he showed the State Treasurer the ordinance of the Convention, with General Pope's authority and direction endorsed, and that the Treasurer said he must decline paying out any money on such authority, being sworn to obey the Constitution and laws of Georgia, and was bonded only to pay warrants signed by the Governor.

During the debate that ensued one delegate said the Treasurer had snubbed the Convention. Another said he would to God the Convention could snub Gen. Pope. The negro Bradley said the Sergeant-at-Arms should be sent with a file of soldiers to bring that impudent Treasurer to the bar of the Convention. Another negro said, "What did they bring us here for?" Great and extreme indignation is expressed by the delegates, a majority of whom have not money enough to take them home. The hotels, boarding houses, the Convention printer, and officials will suffer severely. The Convention adjourned until the 8th of January next.

CANADA.

Adjournment of Parliament—Bills Approved by the Governor General.

[By Telegraph to the Pittsburgh Gazette]

OTTAWA, December 23.—The Parliament adjourned on Saturday until after the 12th of March. Among the bills assented to by the Governor General are the following: To prevent unlawful training of persons in the use of fire arms and military evolutions; to authorize justices of the peace to seize and detain arms collected or kept for purposes dangerous to the public peace; to authorize the arrest of persons suspected of committing acts of hostility or conspiracy against her Majesty's person and Government.

The discount in American invoices for the week is 25 per cent.

MONTREAL, December 23.—A fire occurred yesterday morning in Wordheimer's Hall, occupied as a billiard saloon by Dion. The building was destroyed. Dion lost sixteen billiard tables. Messrs. Gould & Hill, music store, and Wm. Paine, tobacconist, and others loose heavily.

LONDON, December 23.—The offices of the Grand Trunk Railway were entered by burglars yesterday morning, and a large sum of money abstracted.

QUEBEC, Dec. 23.—A heavy snow storm set in on Saturday night and continued until to-day. The railroads are badly obstructed.

MACON, December 23.—A detachment of troops left to-night for Milledgeville, supposed to have some connection with the Treasurer's refusal to pay money to the order of General Pope and the Convention.

LOUISIANA.

State Reconstruction Convention.

[By Telegraph to the Pittsburgh Gazette.]

NEW ORLEANS, Dec. 23.—In the Convention this morning a resolution was offered by Mr. Bonseguur, colored, directing the first Legislature convened after the adoption of the Constitution to ascertain the entire indebtedness of the State, and to issue bonds therefor at six per cent. net, to run over forty years, and that a tax of two mills annually be levied for the redemption of the same. Consideration of the resolution was postponed.

In the afternoon Mr. Cooley read a certificate of the State Treasurer, to the effect that no funds had been deposited to the credit of the Convention, and he therefore moved a suspension of the rules for the adoption of his resolution repealing the bond ordinance. The motion to suspend was lost.

The balance of the session until adjournment was passed in the discussion of the bond question, in the course of which a colored member said when he reflected upon the bond scheme he felt assured that the issue of $300,000 in bonds at eight per cent, for which the State would receive but $195,000, was an infamous swindle.

The Convention then adjourned till to-morrow.

The second clause of Mr. Cooley's resolution provides for the payment of members in warrants out of any funds in the hands of the State Treasurer.

NEWS BY TELEGRAPH.

CITY AND SUBURBAN.

RELIEF OF THE POOR.

Meeting of Representatives from the Various Charitable and Christian Associations of the City to Devise Means for the Spiritual and Temporal Relief of the Destitute.

Pursuant to a call published by the committee appointed at a previous meeting, to devise ways and means for the relief, both spiritual and temporal, of the poor and destitute of the city and vicinity, representatives from a number of the Christian and charitable associations assembled in the Lecture Room of the First Presbyterian church, Wood street, to receive the report of the committee and take such action in the matter as the necessities of the case demanded.

The meeting was called to order by Rev. Mr. Scovil, upon whose motion Rev. Mr. Dickerson was called to the chair.

The Chairman read the 232d hymn, which was sung by the assembly, after which Rev. Mr. Reed offered up a fervent and touching prayer.

The Chairman said that the objects of the present meeting had been so plainly and definitely stated by the Committee in the call published by them, that it required no explanation from him; the call had been widely published and the objects of the meeting specifically defined by it, and it only remained for the meeting to take such action in the matter as the necessities of the case demanded. The meeting was now ready to hear any suggestions that might be made on the subject before them, which was the spiritual and temporal relief of the poor and destitute of the city and vicinity.

Mr. Scovil thought the report of the Committee, which had been prepared by Rev. Mr. Locke, Chairman, definitely explained the objects of the present meeting which report was the published call above referred to.

The Chairman suggested that the report be read for the benefit of the meeting.

Mr. Locke, Chairman of the Committee, then read the report, which having been previously published we omit. It recommended the uniting of all Christian and Charitable associations in the work, under the supervision of the Women's Christian Association and the Ladies' Relief Society, and further recommended that the city be divided into districts, and assigned to the care of churches, each church being responsible for the performance of the work in the district assigned to it.

After an endless amount of discussion, which was void of interest and much of it foreign to the matter before the meeting, *i. e.* the reception of the report, it was received.

The question of its adoption was then taken up and discussed at considerable length, and was finally substituted by the following resolutions, prepared by the Committee, and which were afterwards ordered to be signed and published as an address to the churches:

Resolved, That it is the deliberate sense of this meeting that the work of evangelization in this city and Birmingham be entrusted to the Women's Association, and that the members of the several churches be requested to co-operate with them to the fullest extent.

Resolved, That we pledge the Ladies' Relief Association our support, and request them to publish their districting and the residences of their visitors.

Resolved, That the churches of the city be requested to take up a collection for the Ladies' Relief Association on the first Sabbath of January, or as soon thereafter as possible, as the need is pressing.

The meeting then adjourned, and was dismissed with benediction by Rev. Mr. Young.

Probably Fatal Accident.

Yesterday morning about eight o'clock the watchman on the Pennsylvania Railroad, near Penn Station, discovered a man lying at one side of the track, near the Station, apparently dead. On approaching him he found that he was not dead, but had received a serious injury on the head, which had rendered him insensible. On further examination the injured man proved to be Robert Pringle, an engineer on a stock train, which had passed a few hours previous. He was at once conveyed to the hotel at the station and medical assistance sent for. He was living at last accounts, but no hopes were entertained of his recovery. We endeavored to ascertain how he was injured but could find no one who knew anything further than what we have given above. It is the supposition among the railroad men that his head struck a telegraph poll, one of which stands near the track at that point. But how this could occur without the knowledge of the fireman, we are unable to ass. The matter should and doubtless will be, investigated.

Taken Over.

Isaac Devatt, convicted at the Court of Quarter Sessions for Greene county, of assault and battery with intent to commit rape, and sentenced to three years and three months' confinement in the Western Penitentiary, was taken to that institution by the Sheriff of Greene county yesterday.

Sheriff Cluly and his deputy yesterday took the following persons over the river and committed them to the care of Warden Campbell: D. O'Brien, Ed. Curran, Thomas Bogue, J. Ackey, Isaac Williams, Henry Bell, John Murray and Cal. Black. The offenses of which the above prisoners were convicted, and their sentences, have been published in our Court reports.

The "Pointers".

Patrick Connelly made information before Alderman Humbert against Michael Liden, for assault and surety of the peace, alleging that the defendant struck at him with a cane, and threatened to do him bodily harm. The parties reside at the Point, a locality which is not remarkable for its peace and quietness at any time, but which of late has been more boisterous than ever, and has contributed as largely as any other portion of the city to the support of police magistrates. If the "Pointers" will indulge in such luxuries as fighting, and follow it up with prosecutions, and are willing to pay the costs, they have a right to do so, we suppose.

Aggravated Assault and Battery.

Nicholson Schwaltz and John Nihog made seperate informations before Alderman Strain, yesterday, against Chas. H. Parker, Conductor on the Johnstown accommodation train, Pennsylvania Railroad, charging him with aggravated assault and battery. Parker was arrested and held for a hearing. The offence is alleged to have been committed on December 16th, near Wilkinsburg, on the train, while it was in motion, when the defendant dragged the prosecutors through the car and attempted to put them off. There appears to be another side to the story, however, which will, in all probability, change it materially.

Larceny.

Margaret Sallie yesterday made information before Alderman McMasters, against Catharine Nealin, charging her with larceny. She resides on Strawberry alley, and the defendant, who is a neighbor, called on her, and had been sitting some time, when the lady of the house was called out for a few moments. Before leaving the room she left her pocket book containing $13 lying on the bed, and when she returned her visitor had departed and the pocket book had disappeared. She was arrested and after a hearing, was committed to jail in default of the required bail for her appearance at Court.

Overcoat Stolen.—Saturday evening an overcoat belonging to William Nelson, a painter, valued at $60, was taken from his shop, No. 23 Market street. Mr. Nelson left the coat in the shop while out attending to some business, and when he returned the coat was gone. He made information before Alderman Humbert, charging John Shuman with the larceny. He was arrested, and after a hearing was discharged, there being no evidence whatever of his guilt.

Fraud.—J. D. Dravo yesterday made information before Justice Ammon against A. Robinson, in which he alleges that defendant obtained goods from him to the amount of $500, which he now refuses to pay for, and he has reason to believe that he intends to leave the county to avoid paying for the same. Robinson was arrested and held to bail for his appearance at Court.

Personal.—We had the pleasure of a call from Dr. Henry Goldborne, the talented and accomplished lecturer, who accompanies that great work of art, the Apocalypse, to explain, in word painting, the beauties left on canvas by the artist's brush. The Doctor is one of the most pleasing and eloquent public lecturers in the country.

To Accommodate our customers we will keep open until 9 o'clock Tuesday evening. MACRUM, GLYDE & Co.

Academy of Music—The Great Miltonian Tableaux, from London.

We were pleased to witness such an incontestible of the good taste of the citizens of Pittsburgh, as was evinced in the large and select audience that thronged to the Academy of Music last night to witness the grand spectacular representation of Milton's Paradise Lost. The Miltonian Tableaux are certainly miracles of art. They embody the most magnificent and gloomy and beautiful conception of the immortal blind poet. They thrill, fascinate, awe and edify. They are at once a lesson to the heart, a delight to the eye, and an instruction to the mind.

Words fail to convey an idea of their matchless elegance and beauty. The artist has caught the spirit of poesy and pictures to the eye that which all must have felt in perusing the grand sonorous lines of Paradise Lost.

The exhibit is of that character that attracts the better class of the people especially, and hundreds of our best and most influential citizens attend with their families, who rarely if ever attend exhibitions of any description. It is arranged in sections to best picture the scenes Milton imagined and described. That these should be beautiful, sublime, terrible, is not strange. We read Milton, we are filled with feelings we cannot express. We see the scenes he pictured, as painted by a great artist, and we admire them the more, and re-read, with new interest, the text read often before.

The scenes are brilliant, not only in conception, but also in execution, and are graphic portraitures of the beautiful descriptions in "Paradise Lost." While gazing on them the mind becomes insensibly transported into the strange weird world which Milton's exuberant imaginations created.

Let no parents fail to take their children, and impress upon them the greatest of moral and religious lessons.

They will be on exhibition again to-night and every night this week. Also on Wednesday and Saturday afternoons. A grand treat is announced in store for the audience to-night. Old "Santa Claus" will make his personal appearance on the stage after the exhibition is over, with the favors usually expected from him on such occasions, for you know it will be

"The night before Christmas, when all through the house
Not a creature is stirring, not even a mouse."

This feature of the entertainment alone is worth the price of admission, and we look again for another crowded house to-night, and as long as the exhibitions remains with us.

The Steubenville Female College.

On our second page to-day will be found the announcement of the commencement of the second quarter of the winter term of the Steubenville Female College. We are pleased to state that this very excellent educational institution has been very deservedly appreciated by the public, and during the past quarter a very large number of boarding scholars have been in attendance. The College buildings are complete in every department, and will compare favorably with any similar institution of the character in the country. Located just outside the charming town of Steubenville, on the banks of the Ohio, and taking in the most beautiful stretch of landscape scenery on that river, the site of the College is not only conducive to health and study, but is one of the most delightful and romantic in America. The course of study pursued by the scholars is all that could be desired, and parents could not entrust their daughters for education to a college where they will receive better intellectual and moral training. Rev. A. M. Reid, the Principal of the Faculty, a gentleman with whose scholastic attainments and rare qualifications as an instructor we have full knowledge, has admirably succeeded in placing this College among the first of the country, and we trust that his efforts and those of Dr. Beatty, the able Superintendent, will be generously seconded by those having the great responsibility of educating females. For terms, etc., see the advertisement.

The Sweetest of Life.

Our uptown readers have reasons to be thankful that they have in their immediate locality a confectionary which is fully equal in point of stock to any in the heart of the city, and a confectioner who thoroughly understands every department of his business. We refer to Mr. J. B. Youngson, whose well supplied store is at No. 299 Wylie street. There will be found a stock of sweetmeats which will please everybody who may call. The purest candies are only sold, and parents need have no hesitation in purchasing for their children's Christmas trees all the necessary bonbons and sweetmeats. Mr. Youngson is a practical and experienced baker, and keeps constantly on hand a very fine assortment of all kinds of cakes, from the delicate little "lady finger" up to the toothsome and weighty wedding or party cake. Orders for party suppers, for cakes, candies or anything in his line will receive prompt attention and be executed at reasonable prices and in a most satisfactory manner. Knowing Mr. Youngson's method of doing business, and the high character which he enjoys as a confectioner, we can earnestly commend him to the patronage of our readers.

Christmas Gift Books.

In order to aid our readers in selecting Christmas annuals out of the immense stock of holiday books offered by Henry Miner, Nos. 71 and 73 Fifth street, we herewith name a few which meet with our heartiest approval, and which are sold at the very reasonable price of two dollars and fifty cents each. To say nothing of the contents the books are cheap at that price, if we consider only the elegant manner in which they are bound and illustrated. Here are our selections, all Christmas and New Years Gift Books:

Forget-Me-Not.
Keepsake of Friendship.
The Amaranth.
Memory's Gift.
The Moss Rose.
Token of Friendship.
The Philopoena.
Gift of Affection.
The Magnolia.
Friendship's Gift.
The Garland.
Friendship's Offering.

Parlor Games at Pittock's.

In the splendid assortment of holiday goods thrown open for the inspection of the public at Pittock's Bazar, opposite the Postoffice, will be found a very fine collection of parlor games, which would be acceptable gifts to the young or old. Pittock has everything worth keeping. His stock of the works of standard authors is hard to beat; his endless variety of juvenile and toy books challenge comparison; his fine collection of family bibles and hymn and prayer books are so cheap as to be within the reach of all; his photographic album display is immense; the line of writing desks, port folios, ladies' companions, workboxes, &c., is something worth examining by those who are in a quandary as to what they shall buy as a present for a friend. Books, stationery, photographs, fancy goods, and everything else peculiar to the line of trade, can no where else be purchased to better advantage than at Pittock's. The prices have been reduced to suit the stringency of the times, and dealers will be dealt with on very favorable terms.

Just the Book.—At Miner's largely stocked book store will be found a splendid London edition of Dalziel's Illustrated Goldsmith, comprising the Vicar of Wakefield; The Traveller; The Deserted Village; The Haunch of Venison; The Captivity; (an oratorio,) Retaliation; Miscellaneous Poems; The Good Natured Man; She Stoops to Conquer; and a Sketch of the Life of Oliver Goldsmith, by H. W. Dulcken, Ph. D. with 100 pictures drawn by G. J. Pinwell; Engraved by the Brothers Dalziel. This volume is sold very cheap and will prove a suitable holiday present.

Another Medical Wonder.

WEST POINT, COL. CO., O.,
December 21st, 1867.

DR. KEYSER: I write to thank you for your kindness and scientific management of my disease, for which I called to consult you. On the first of April, in the year 1865, as you will remember, I was sorely afflicted with the Scrofula, and had gave up all hopes of ever having a cure. I often thought it was impossible, that nothing could be done, for I had tried nearly everything that was within my reach, and tried seven well learned doctors, and failed in all; some could relieve me of my awful sufferings of pain that was raging in my body; but was no touch towards effecting a cure, and one day as I was reading over the list of cures effected by your treatment on Scrofula, I began to think of the old saying "that as long as there was life there was hope;" and I would try once more, for I knew that I never could get well by doing nothing; that the disease had taken a deep hold in my body and was fast devouring the flesh from off my bones, and without some help I must surely die; and that was a settled point by all who ever saw or was acquainted with me, for I had running sores on my left shoulder and arm, and they were filled with proud flesh. I could not use my arm at all, by times, and my right leg was affected from my body to the end of my toes; running sores on and about the knee, and was swelled till I often thought that it would burst. When I set my foot on the floor there was no natural feelings in my foot and legs, by times, for the skin became all purple spotted, and there were days and weeks and months that I could not walk a step without the aid of some one's help, or a staff, and at last it run all over my head and face. My face and head was also swollen, and it affected my eyes so that I could not see to read or work any at all, and there arose large lumps of humor one after the other around my neck and face. Indeed, I suffered days and nights. I scarcely knew when I was asleep, and I began to think this would not do. I made one more trial. I then represented myself before Dr. Keyser, and he said that a cure was certain, and I began immediately to undergo his treatment; and it was light, I thought, for all other doctors had blistered and cupped and poulticed and caused me pain; but the third night after I began to take Dr. Keyser's medicine I slept the whole night without pain or a groan, and the swellings began to disappear from all parts of my body, and in three months I could walk four miles in one day and in six months the awful sores were entirely cured up, and in one year I was entirely cured, was perfectly well; have had better health than I ever had in my life ever since, and I thought that I'd wait long enough to be certain of the truth that I have remained healthy and strong ever since; and a thousand thanks to you which, under the providence of God, that you have cured me; that he may bless the use of your medicine to others as he has to me, and that his Divine grace may attend you, is the heartfelt prayer of your patient.

I wish you to publish this and let all the world know what I do about your medicine, for I consider it my duty to make my case known to the country for the benefit of others, who may be suffering as I was and do not know the value of your medicine.

We the undersigned, live in Madison township, Columbiana county, Ohio, and will be pleased to satisfy any one of the truth of this certificate, which was written by the patient herself.

The Vice Presidency—Gen. J. K. Moorhead's Name Suggested.

EDITORS GAZETTE:—As the public attention begins to be attracted to the question of the selection of candidates for the Presidency and Vice Presidency, the writer begs leave, through your paper, to suggest the name of our fellow citizen, Hon. J. K. Moorhead, for the second office.

Gen. M. has been elected to five successive Congresses, and has served nearly ten years in the public councils of his country. He has been an able, faithful and most efficient representative, and his retirement from the public service at the expiration of the Fortieth Congress, does not meet the approbation of his constituents. No man in Western Pennsylvania has deserved better of the country in the most trying period of her history, and we think he would bring as much strength to the National ticket, and if nominated, as much experience, ability and statesmanship into the office, as any man in Pennsylvania named for the office.
PITTSBURGH.

The Great Western Gun Works—Re-opening at No. 230 Liberty Street, With an Entire New Stock.

Mr. J. H. Johnston, proprietor of the Great Western Gun Works, recently destroyed by fire, respectfully announces to his friends and the public generally that he has secured the commodious sales room, No. 230 Liberty street, in the Academy of Music building, and resumed his business with an elegant, large and judiciously selected stock of new goods. The stock embraces guns, pistols, revolvers, carbines, rifles and all the accoutrements known to sporting men. The rifles and shot guns in store, suitable for hunting purposes, are very superior, and are offered to the wholesale and retail trade at remarkably cheap prices. Mr. Johnston's stock of fixed ammunition, powder cases, cartridges, hunting pouches, flasks, &c., will commend itself to those desiring to purchase anything in the line. We trust that our readers will not fail giving the Great Western Gun Works, at their new quarters, a purchasing visit.

An Acceptable Present.

Nothing could so please the heart of a smoker than a Christmas present in the way of an elegant meerschaum, cigar tube, tobacco pouch or a box of delicious Havana cigars. Mr. G. Blumenschein, No. 4 Seventh street, has an elegant assortment of Meerschaum Pipes, Tubes, Cigar Cases, Snuff Boxes, Briarwood and Clay Pipes, &c. Besides, he has a large stock of cigars and tobacco, of all the favorite brands. The stock is being sold off at very low prices, and devotees of the weed, who desire a good cigar, or choice brand of chewing tobacco, will find Blumenschein not only willing but fully prepared to supply their wants. It may be proper to state that the Meerschaum Pipes, some of which are of handsome designs, are warranted genuine, so that parties purchasing may rely upon obtaining such a pipe as the proprietor represents.

An enterprise, such as the Gettysburg Asylum Association, specially authorized by Act of the Legislature, warmly endorsed by the highest reputations of the State, both in military and civil circles; conducted by responsible gentlemen who have already invested nearly half a million dollars in guiding it thus far to success; and having for its object to found, on the battle-field of Gettysburg, a permanent "Soldiers' Home," wherein many hundred crippled survivors of the late war may find happy and honorable refuge for the balance of their lives, cannot but be warmly commended and supported by every lover of his country.

Tickets $1. For sale at the music store of Messrs. Hoffman, Hoene & Co., No. 53 Fifth street.

The attendance at the special sale held by Messrs. Joseph Horne & Co., Nos. 77 and 79 Market street, has been large, and thousands of persons have already availed themselves of the rare opportunity afforded for obtaining trimmings, notions, embroideries, and general holiday goods, at great bargains. The firm are determined to close out their immense stock at prices lower than have been offered here for many years. Dealers who are in the city to purchase their holiday goods are earnestly invited to favor this house with a call.

Weed Sewing Machines for Christmas.—The greatest blessing you can bestow for a Christmas present is a good Sewing Machine. By examination and trial thousands have found the Weed Sewing Machine to be the best and the most reliable, and it has been awarded all the first premiums the past season. In fact, still stronger evidence, it has been sent to the same house where others had previously been sent. They were sent back and the Weed kept. Call and examine it at R. H. Long's, 112 Grant street.

Caught in the Act.—A man who gave his name as Westley Lewis was arrested last evening by officers M'Coy and Crogan, while attempting to steal an overcoat from a pea nut vender on Fifth street. He was lodged in the lock-up, and will have a hearing this morning.

Horse Stealing.—Wm. Fortune made information before Justice Ammon yesterday, charging James Kenney with stealing a sorrel mare, valued at $100, from the stable of Fahnestock, Fortune & Co., in Birmingham. A warrant was issued for his arrest.

Dr. Aborn.

We observe by the Meadville papers that this distinguished surgeon and physician is working great good among the afflicted of that city. He is a true representative of the true medical talent of our country, and merits the great success which attends him everywhere, as he has gained his fame fairly and honestly, and on merit alone has advanced to the highest rank in his profession. Here Dr. Aborn is universally known, and everywhere about us we can point to those on whom he has effected cures, and who gratefully acknowledge his abilities as a surgeon and physician. Although absent from the city on a professional tour, our readers must not think that they are to be deprived of his eminent services, as he has now under the process of completion one of the finest suburban residences in the neighborhood of the city, which he intends, on his return, to occupy and make his permanent home.

Beat his Wife.—Catharine Hartman made information before Justice Ammon, yesterday, charging her husband, Conrad Hartman, with assault and battery. The defendant was arrested and held to bail for his appearance at Court.

Pocket Picked.—A lady had her pocket picked in a Birmingham street car on Sunday evening, of a pocket book containing between eight and ten dollars.

The Pittsburgh Gazette

TUESDAY, DECEMBER 24, 1867.

IT IS COMPUTED that the production of gold in this country, during the last seven years, amounted to $452,600,000; that there was imported in the country during the same period $125,000,000; making a total supply of $577,600,000; that of this sum there was exported $393,700,000; leaving a net gain in the seven years of $183,900,000.

MR. JOSIAH QUINCY, of Boston, makes a plausible argument in the December number of Hunt's *Merchant's Magazine* in favor of the purchase of all the rail roads in the country by the respective States or by the nation. There is no idea his idea will prevail. England, in incorporating railway companies, has reserved the right to buy; but it is a right that will never be used. With our greater breadth of territory, the reasons for Government keeping out of such proprietorship are increased.

SOME of the victims of the late rail road accident near Buffalo, had taken out accident policies upon their lives, when purchasing their tickets, and the policies were destroyed with the bodies of the insured. The probabilities of being burned to an unrecognizable mass on railroads have been so slight as not to suggest to insurers the necessity of depositing their policies in other hands. But the late accident shows how important it is that an accident policy should not be in the pocket of the insured.

HEAVY losses have been incurred during the year now closing through the fall in values of merchandize. These losses cover almost all the articles entering into general consumption. The importing interest has suffered as well as the wholesale dealers in domestic goods. These losses have not been so great as to produce serious embarrassment, but have been sufficiently large to inspire caution. In consequence the importations during the last fall were much lighter than during the fall before.

THE GRANT MOVEMENT, popular generally throughout the North and West, does not take among the Republicans of Missouri, or of the States farther South. A Chicago journal having characterized the expression of preference for another candidate as "base," the St. Louis *Democrat* (Rep.) responds:

"Is this the spirit in which the Republican party can go into a nominating convention with hope of harmonious results? Prophecy is a cheap gift in these days. But it is barely possible that if those who question the wisdom of Grant's nomination are treated in this lordly fashion, there may be more than two candidates in the field.

RAILWAY CATASTROPHES.

It has become the fashion whenever a railway train smashes up, and lives are lost, to denounce the result as "wholesale murder," and this without stopping to ascertain whether the misfortune resulted from intention, carelessness or accident. Indiscriminate censure of this sort excites prejudice, but it can serve no beneficial end.

People must and will travel, and locomotion involves liability to injury. Indeed, refusing to stir not unfrequently involves individuals in bodily harm. No means have yet been devised by which a million of people can remove or be removed a distance of one thousand or one hundred miles, without exposure of life, or limb, or general health. If they go afoot, many will fall out by the way, or slip, or tumble, or collide, or be sun-struck, or frozen, or take colds resulting in death or at least in sickness. If they make the transit in wagons, drawn by horses, the liability to injury will not be diminished but rather increased. Wagons are not so made as never to break down, or horses so well trained as never to become unruly or unmanageable. Roads are not always in complete repair; bridges, whether of timber or iron, will sometimes prove defective; and embankments and dug-ways, present chasms down which vehicles will slide, sometimes in the full blaze of sun-light, oftener in darkness or in that intermediate state between day and night.

Of all the means of transportation yet devised railway traveling is the securest. Take one year with another, and a million of men, women and children, are carried by rail a given distance with fewer casualties than by any other method whatever. Of course, from the structure of railways, from the instrument of propulsion, from the speed demanded and attained, from the dimensions and materials of the coaches, from the numbers who occupy them, and from the requirement of heat in cold weather and the way adopted for furnishing it, when a railway catastrophe occurs, it transcends ordinarily what is possible in using a wagon or post-carriage. Whoever expects to divest railway traveling of this peculiar liability, is destined to utter disappointment.

Let a man stand close by a railway track near a sharp curve, and wait till an express train comes thundering past at a speed of twenty five or thirty miles an hour, and he will get a most vivid idea of what a smash-up, from the very nature of the case, must or may imply. The ponderous machine, the vast momentum, the fearful swing, the lateral pressure, the yielding ties, the slender spikes, the multitudinous passengers, the heated stoves, and the tinder-like material of which the cars are largely composed, all suggest possibilities of danger. The marvel is not that catastrophes occur, but that they happen so unfrequently. The wonder is not in the tragedies which, at intervals, like that at Angola, startle the public and send mourning into hundreds of families, but that such scenes are not enacted much oftener than they are.

I surely is not in the interest of any railway company to have a terrible slaughter occur on its line. A certain definite loss always results from the destruction or damage of cars or locomotives. The contingent loss involved in verdicts for damages is pretty sure to follow; for let what will be said of wealthy corporations, they stand no chance at all of getting justice when brought before a court and jury by a single man or woman demanding damages, no matter for what. Nor is this all, nor the worst of it. When a great catastrophe happens on a road, business is driven away from it. Many nervous people either stay at home, or, if they must go abroad, take any other line than that which has awakened their apprehensions.

Manifestly, the men charged with the management of a railway train, share all the dangers incurred by passengers, and the additional liability to discharge from service and disgrace in their calling, if calamities occur which they could have prevented by prudence and circumspection. Engineers and conductors hold their own lives to be as dear to them as passengers do their's. They are as strongly attached to their wives and children, and have no notion at all of killing themselves or others.

Doubtless a conductor dislikes to fail of making his connections. His reputation and emoluments depend measurably upon his promptitude and efficiency in overcoming obstacles. It may be that habit begets a degree of hardihood in him, and that he sometimes exceeds his duty. But, do not passengers get nervous, fidgety, and querulous whenever a train gets so far behind as to make a desired connection improbable? With what impatience they consult their watches! How eagerly they interrogate the conductor as to the possibility of so quickening speed as to make up lost time! How sullen they look, and how sharply they speak, if he decides he cannot meet their wishes!

But, it is said, let the speed be diminished so as to contribute to safety. Do they who so request take slow trains when they can get fast ones? We very much doubt if they do. The great majority of travelers demand or desire a degree of speed incompatible with the greatest practicable security. The train that reaches a given point an hour in advance of others, though that hour be at night when no business can be done, is sure to obtain the preference. High speeds are not profitable to railroad companies, and they would be glad to slacken, if they could, but the preference of the people for swiftness begets a necessity that is insurmountable. The fault is not so much with the companies as with their customers.

In the olden time, when we made long journeys, in winter, in stage coaches, no thought was indulged of other means for keeping warm than an abundance of clothing, or, possibly, a section of heated plank under the feet. All the week long have we made slow progress with our fellows in this manner. Now, people will not dispense with stoves in railway cars, and yet think it beyond endurance if the burning coals of the stoves ignite the cars in case of upsetting. If people insist on having artificial warmth while riding, they ought to understand that it can only be had by increased exposure in case of accident. Fire is a dangerous element. Many ages doubtless elapsed before man put forth his hand and took it into his dwelling. He saw it fall from the heavens in the lightning, and smite the gnarled oak. He saw it burst out of volcanic peaks, and pour down into the valleys, consuming all it touched. He saw it spring up from the earth in spontaneous combustion. Wherever it appeared, it was an object of terror. He who first put forth his hand, and, taking it up, carried it into his abode, made a servant of it, to boil his pot, roast his meat, or keep him warm, was raised to a seat among the Gods. For many centuries has fire been under discipline in the hope of getting the wildness out of it, so that it will do no evil, but only good, yet the nature of it has not been changed. As soon as it slips from under sharp control, it is as terrific as it was the day after it sprang into existence. No man has tamed it, and no man ever will. To use it, is to take a certain degree of hazard. It is now suggested that stoves be dispensed within cars, and the needed warmth be supplied by steam from the engine. Probably an improvement is attainable in this direction, though, at best, a contingent liability to scalding will remain.

Whatever can be done to lessen the danger of railway conveyance ought to be attempted; but it will be found, that increased security and comfort will come not as the result of indiscriminate and heated denunciation, but of careful study and patient experiment. The horrors of Angola will lead to profitable investigations.

FARM, GARDEN AND HOUSEHOLD.

Diseases of Poultry.

The diseases of poultry, being taken in time, may not result in a serious malady, and seldom in death; but procrastination is generally as fatal in poultry keeping as anything else.

The aliments of fowls may generally be traced to a variable temperature, to irregular, injudicious feeding, or to their being kept on ground which has become impure with their use of it. Judicious feeding, perfect cleanliness, and occasional removal to new ground, will, to a great extent, keep fowls healthy.

The following are the principal diseases among them:

Apoplexy, evinced by inflamation of the brain.

Tracheal Inflamation (or gapes), with parasitic worms in the windpipe.

Roup, which is highly infectious, and a very deadly disease, but if taken in time can be cured. The premonitory symptoms are a slight hoarseness, and catching in the breath as from cold.

Moulting, with old fowls, is often so severe and so protracted, that it carries them off. The young are often victims of leg weakness and bad feathering.

Sickly fowls should also be removed from the fowl-house on the first symptom of illness, as they are generally ill-used by their companions—pecked at, and evidently become objects of dislike.

Apoplexy with fowls, as in human beings, is difficult to cure. It is generally the result high feeding, and is most common among laying hens, which are sometimes found dead on the nest—the expulsive efforts required in laying being the immediate cause of the attack.

The only hope for cure consists in an instant and copious bleeding, by opening a vein with a pen knife or lancet. The largest of the veins seen on the under side of the wing, should be selected and opened in a longitudinal direction, not cut across, and so long as the thumb is pressed on the vein at any point between the opening and the body, the blood will be found to flow freely. Light food and rest should be given the bird after the operation.

Gapes, in nine cases out of ten, are obtained from rain or impure water, and if a certain preventive (not cure) is desired, the use of camphor will be found the most efficient remedy. A small lump, about the size of a peanut, kept constantly in the vessel from which the fowls drink, will make gapes unknown in your yard. Having carefully adopted this precaution, this year more particularly, and having raised over two hundred chickens without one case of gapes, I can testify that camphor is the only certain remedy. My neighbor Mr. T——, who is also a member of the American Poultry Society, and who has equal, if not superior advantages to mine for poultry rearing, has lost three-fourths of his chickens by gapes, which I attribute to his use of rain water and non-use of camphor.

Rain water will, after having stood sometime, be found, by examination under a microscope, to contain worms identical with those taken from the throat of a chicken suffering from gapes.

Roup, if treated at the outset, may be cured by feeding twice a day with stale crusts of bread soaked in strong ale. Dry houses and cleanliness are indispensable.

Fowls sometimes waste away without any apparent disorder. In such cases a teaspoonful of cod liver oil per day will often be found a most efficacious remedy.

Scouring or diarrhœa is caused by the too abundant use of relaxing food. Cayenne pepper, or chalk, or both, mixed with meal or boiled rice, check the complaint.

Leg weakness is generally caused by the size and weight of the body, being more than the legs can bear. It is shown by the bird resting on the first joint. Being entirely the result of weakness, the best treatment is that which gives general strength and stamina to the sufferer. Tincture of iron, say five drops to a saucer of water, must be given. [Essay by S. M. Saunder, read at the meeting of the American Poultry Society.]

New Points in a Good Cow.

"Dairyman," in the *Practical Farmer*, for September, presents a point in choosing a cow, which is new to us, but there is certainly sound philosophy in it. Other things being her first calf at a season of the year when feed is fresh and tender and most productive of milk, as the month of June, worth twice as much as one that brings her first calf in winter. He says that he saw a very promising half Alderny heifer which took a premium at the Pennsylvania State Fair, for which the owner asked $60. He offered to give the price provided she was to calve in June, but finding she was to calve in February $30 was all he would offer for her.

Long observation and experience with heifers and their subsequent character as milkers have satisfied him that commencing milk in early summer is an indispensable condition to a good milker in after years, and that the difference is fully one-half in any grade of stock. The philosophy of the difference in favor of heifers coming in for the first time in June, he states as follows: "The grass being then in the condition to produce a full flow of milk, all the parts that tend to the secretion of milk are developed to their utmost capacity. The udder and teats and milk veins become enlarged, permanently; and the best cows I ever raised we had to commence milking several weeks before they calved to prevent garget."

Feed Economically.

For some years past hay and grain have been unusually high in this section of country, so much so that many farmers have sold hay and kept less stock. The result of such a practice will soon be felt on the farm and in the lack of profits from the sale of animals and farm products. It becomes a question of no small importance as to how the farmer shall manage under these circumstances.

We meet the question at once with the response, "feed economically." Fodder of various kinds is yearly wasted, sufficient to feed one-tenth more stock than is now kept, and in many instances the waste might be estimated at double that amount.

There is first a loss at harvest time. Grass is badly cured, corn fodder is allowed to remain in the hay field until its vitality is washed out by autumn storms. Straw is profusely spread about barn and yards at threshing time. And then again, when farmers come to feed, they are extravagant in the amount they give their animals, and allow much to be wasted through heedlessness.

If those who keep stock will be regular in feeding, giving at each time only what is required, they will find that a much smaller quantity than is generally supposed will keep their animals in excellent condition. Use the cutter, and mix with cut feed, be it straw, poor hay or corn stalks—meal, shorts or some kind of grain; keep your cattle well sheltered; make use of racks in which to feed; give roots well cut, and wherever it is practicable steam the fodder and cook the vegetables fed to cattle.

Don't misunderstand us and stint your creatures—keep them in flesh, and you will see the benefit in the spring.—*N. H. Farmer.*

Do Not Sell Lean Cattle.

We commend the following to our readers, as a matter of great importance. It is from the *American Farmer*:

"Farmers sell too many of their beef cattle when they are in merely ordinary beef condition. In doing this there is a two-fold loss that but few persons consider. The animal yields a less number of pounds, and the meat brings a lower price. Between ordinary beef and really choice fat beef, there is always a difference of two or three cents per pound, and this difference, when added to the whole number of pounds when the animal is in the best condition, will be found to be no mean amount. Nothing pays better than the few bushels of grain, that puts the finishing touch upon what is generally denominated a good beef animal. Those of our readers who have followed this often repeated advice in our live stock market reports, are witnesses to its soundness. Do not be in a hurry to market, under ordinary circumstances, until cattle are really fat. The same applies to all other market animals."

To Make Apple Pies

A lady correspondent of the *American Farmer* says that to make apple pies, do as follows:

Procure an earthen dish about three inches deep, such a one as is suitable for a chicken pie. Invert in the middle an old coffee cup. Peel and quarter the apples, and place them all around the cup, allowing a tablespoonful of sugar, and half a grated nutmeg, and nearly a pint of water. Cover with a good light pastery, pressing firmly all around the edge. Make a small incision in the pastry, just over the teacup, and bake in a good hot oven. When the crust is brown and well done, do not take out the pie, but open the oven doors and let it remain for two hours, when set to cool, for it is much nicer eaten cold. Remember, when you cut the pie preparatory to eating, to lift the cup in order to allow the juice to escape, which is the best part of the pie. Apropos of using so many apples. I have a six gallon crock in my pantry, in which all the peelings, after being chopped in the bowl, are placed and covered with cold rain water. It makes excellent pale vinegar.

How to Keep Meat Fresh.

Simply immerse in butter milk. This will keep it for several days, when the milk should be changed, and fresh milk substituted. In this way, beef, veal, &c., can be kept for several weeks and it will be as sweet and fresh at the end of that time as when first put in. Our butcher furnished us with the receipt. The whole neighborhood is now saving its meat in this way. It is equally efficacious in the hottest weather.—*F. G., in Rural World.*

HEAVY SUPPERS.—Supper should be taken about dark, and when the nights are short, about sun-down. This will allow sufficient time for the food to digest before retiring. The stomach should have rest at night, as well as the other organs of the body. Heavy suppers distend the stomach, impede the respiration, oppress the brain, cause disturbed sleep, horrid dreams, night-mare, and in many cases, sudden death. If you would enjoy quiet, refreshing sleep, and avoid disease and sudden death, shun heavy suppers. This meal should consist mostly of toasted bread, wafers, biscuit, a small quantity of fresh butter, with milk or water for drink.

CURE FOR EAR ACHE.—Take a small piece of cotton wool, making a depression in the center with the end of a finger, and fill it with as much ground pepper as will rest on a five cent piece, gather it into a ball and tie it up, dip the ball into sweet oil and insert it into the ear, covering the latter with cotton wool, and use a bandage or cap to retain it in its place. Almost instant relief will be experienced, and the application is so gentle that an infant will not be injured by it, but experience relief as well as adults.

BY USING SYRUP or molasses for mustard plasters, they will keep soft and flexible, and not dry up and become hard, as when mixed with water. A thin paper or cloth should come between the plaster and the skin. The strength of the plaster is varied by the addition of more or less flour.

RECIPE FOR CHAPPED HANDS.—Linseed oil, one pint; rosin, three ounces; mix, put on the fire, and stir until well mixed.

The Great Pictorial Annual.

Hostetter's United States Almanac, for 1868, for distribution, gratis, throughout the United States and all civilized countries of the Western Hemisphere, will be published about the first of January, and all who wish to understand the true philosophy of health should read and ponder the valuable suggestions it contains. In addition to an admirable medical treatise on the causes, prevention and cure of a great variety of diseases, it embraces a large amount of information interesting to the merchant, the mechanic, the miner, the farmer, the planter, and professional man; and the calculations have been made for such meridians and latitudes as are most suitable for a correct and comprehensive NATIONAL CALENDAR.

The nature, uses and extraordinary sanitary effects of HOSTETTER'S STOMACH BITTERS, the staple tonic and alterative of more than half the Christian world, are fully set forth in its pages, which are interspersed with pictorial illustrations, valuable recipes for the household and farm, humorous anecdotes, and other instructive and amusing reading matter, original and selected. Among the Annuals to appear with the opening of the year, this will be one of the most useful, and may be had for the asking. Send for copies to the Central Manufactory, at Pittsburgh, Pa., or to the nearest agent for HOSTETTER'S STOMACH BITTERS. The BITTERS are sold in every city, town and village of the United States.

Coughing in Church.

Hundreds of persons destroy the interest of a whole congregation, by a continued coughing and sneezing, when in church, and frequently interrupt the preacher in his sermon, by a long bark, as unbecoming as it is dangerous to the health of the person himself. This need not be. DR. KEYSER, of Pittsburgh, has prepared a medicine which, although you can't carry it in your pocket, if you will take a dose before going to church, will allay all tickling and irritation of the lungs, and by a perseverance in its use for a day or two, will entirely cure the disease. SO DON'T COUGH ANY MORE IN CHURCH; THINK OF DR. KEYSER and his CHERRY PECTORAL; open your heart strings and purse strings, and you will be a better and happier man, and not be looked upon as one who annoys your neighbors. You can get it at any Druggists.

HEALING WITHOUT DRUGS.

The true curative plan or natural healing art is based entirely upon physiological principles—upon the ACTIVITY OF FUNCTIONS in appropriating or using the LIFE SUSTAINERS, and their nutrient value being assimilated in a manner that is potent in the BANISHMENT OF DISEASE from the system. But before we can heal through the inherent vital properties of the tissues, we bring the NATIONAL MATERIA MEDICA to bear, in DRAWING OUT THE DISEASE MEDICINES, and morbid materials through the activity of the depurating channels, sanatory provisions and safety valves, with which the system is bountifully supplied. But when these are either obstructed or not understood, the penalty is the same; therefore instead of quaking lest we die before we have gained more money than we can use, it is our highest policy to learn first the laws of righteousness in the bodily tabernacle, in order that we may live to inherit our natural wealth of happiness. By our normal tonics, alteratives, stimulants, sedatives, &c., we get the FRIENDLY changes of vital action, without the corrosive wounds inflicted by drugs. By a correct dealing with causes in the province of disease, we eradicate the whole catalogue of parasites, among which are tape worm, erratic worm, &c.; also, tumors, cancers, ulcers, abscesses, dropsy, insanity, diseases of the bones or maladies, ossium and fragilitas ossium, deafness, liver complaint, dyspepsia, gout, rheumatism, neuralgia, and in short every disease that flesh is heir to, provided our remedial plan is strictly adhered to. We do not expect to please all. But those who have been the victims of the empyraction and ingenious lingo of similia similibus curantur, and contraria contrariis curantur practice; and now wish PHYSICAL REDEMPTION, in its broadest sense, can try the Vis-Conservatrix Naturae Method, by giving us a call, at No. 50 CENTRE AVENUE, Pittsburgh.

MAYOR'S OFFICE.
PITTSBURGH, PA., Dec. 23d, 1867.
Whereas, the 7th section of chapter seventeen of the City Code, directs and orders that all and every person who shall possess or inhabit the front house, shop, or building adjoining to and fronting the foot pavement within the said city, shall cause the same along the fronts of their respective shops, houses, buildings or property to be swept, scraped and cleaned at least on every Tuesday and Friday of each week. And as many of the pavements of the city are in such condition as to seriously impede the business of and are dangerous to the pedestrians, this is to give notice that unless the afore-recited provision of the ordinance is complied with, the penalties attached thereto will be strictly exacted.

ST. LOUIS WATERWORKS.
To Machinists.
OFFICE BOARD OF WATER COMMISSIONERS, CITY OF ST. LOUIS, Dec. 16, 1867.
SEALED PROPOSALS, endorsed "Proposals for High Service Pumping Engines," and directed to the "Board of Water Commissioners," will be received at their office, southeast corner of Fourth and Elm streets, city of St. Louis, until twelve o'clock noon, of MONDAY, the twentieth day of January 1868, at which hour the bids will be publicly opened and read, for building and erecting at Bissell's Point, City of St. Louis, two high service pumping engines, with boilers and appurtenances complete; engine No. 1 to be completed and ready for service by the 1st of November, 1869; engine No. 2 to be completed and ready for service by the 1st of January, 1870.
Also, at the same time and place, sealed Proposals, endorsed "Proposals for Low Service Pumping engines," and directed to the "Board of Water Commissioners," as aforesaid, for building and erecting at Bissell's Point, City of St. Louis, two low service pumping engines, with boilers and appurtenances complete. Engine No. 1 to be completed and ready for service by the 1st of Oct. 1869. Engine No. 2 to be completed and ready for service by the 1st of January, 1870.
Plans of the engines and boilers can be seen, and specifications with form of proposal and contract can be obtained upon application at the Engineer's office, on and after Thursday, the 26th of December, 1867, and also at the office of W. E. WORTHEN, Civil Engineer, 30 Broadway, New York.
The amount of security will not be less than fifty thousand dollars on each contract. The Board reserves to itself the right to increase this amount to any sum not exceeding one-half the amount of the contract, should they decide that it is for the interest of the city to do so. The sureties offered must be residents freeholders of the county of St. Louis.
By order of the Board

AN ELEGANT HOLIDAY PRESENT.
TWENTY REASONS
FOR BUYING A
MASON & HAMLIN
CABINET ORGAN.
1. It is the BEST INVESTMENT you can make; safer and bringing greater returns than money loaned on interest or invested in bonds or lands.
2. It will render home attractive, and save more expensive and less beneficial amusements.
3. Its music will cultivate good feeling, and have the best influence.
4. It will enable your sons and daughters to learn to play, and so give them a valuable accomplishment.
5. It will give them facilities to qualify themselves as teachers of music, which is as good as a trade or profession. Thousands of ladies are now pleasantly supporting themselves by teaching music, which they learned merely as an accomplishment. If your daughter has some aptness for music, you would better give her a good instrument now, and encourage her to learn to play on it, than to give her thousands of dollars some years hence.
6. It will be a pleasure and comfort yourself during the long winter evenings.
7. It will last a lifetime, and you will value it more and more highly.
8. It is easier to learn to play on than a Piano Forte and costs much less.
9. The Mason & Hamlin Cabinet Organs are THE BEST instruments of this class in the world.
10. This is proved by the testimony of the best judges. They have been awarded highest premiums at OVER SEVENTY industrial competitions, including the FIRST PRIZE MEDAL at the WORLD'S EXPOSITION AT PARIS, this year. In their circular, M. & H. print the testimony of more than three hundred of the best musicians in the country that their instruments excel all others. When one who wishes to sell you an instrument claims that it is recommended as the best by hundreds of the most distinguished organists, ask him to *show you their testimony. If it has ever been given, he will have it in print.*
11. Compare the instruments made by M. & H. side by side with any others; compare them critically and thoroughly, tone by tone, and you cannot fail to see superiority in many respects.
12. These instruments are the only ones having the celebrated AUTOMATIC BELLOWS SWELL, the most important improvement in reed instruments for twenty years.
13. They are the only instruments having PATENT SELF-ADJUSTING REED VALVES, and the various other patented improvements of Mason & Hamlin.
14. They are the only reed instruments having clothed mortices.
15. Compare the exteriors, and observe that the instruments of M. & H. have the best quality of ivory; ivory fronts to the keys; real ebony and not merely colored black keys; desks made in the most substantial manner of three separate pieces of wood, glued together, and not liable to break, &c., &c. This thoroughness of workmanship, and use of only best material, runs through the whole instrument.
16. The thoroughness of construction of these instruments gives them the greatest durability. They are not liable to get out of order.
17. They will improve by age, getting even better in quality of tone.
18. THEY ARE THE CHEAPEST INSTRUMENTS OF THE CLASS; not the lowest priced, indeed, though the difference in price between these and inferior instruments is not great. It costs a little more to do the very best work, but is cheapest in the end.
19. It is not safe to trust to the judgment of dealers, who are *tempted to think those instruments are the best on which they can make the greatest profits.* M. & H. have fixed their prices so low that they cannot afford to pay the large commissions given to dealers by makers of inferior work.
20. Every instrument made by Mason & Hamlin is fully warranted. If it proves defective, you can suffer no loss, as their guarantee is above question.
☞ Send for a Circular, which will be sent gratuitously, containing full descriptions and illustrations of the different styles and prices, which vary from $75 to $1,000 and upwards, each; also with testimony in full from the distinguished organists of the country to the superiority of these instruments.

The Pittsburgh Gazette

GLEANINGS.

—Poor old Rossini is ill.

—Marigold is the new color for silk.

—Phthisic is what troubles the Sultan.

—Stoneless cherries are the latest triumph of pomologists.

—Tuscaloosa, Alabama, has a freedman Justice of the Peace.

—Chase should be called Rienzi—the last of the *Tribune's*—*Boston Post*.

—The Deity that unappreciated pedestrians worship is doubtless Bacchus.

—When was Noah in America? When he was on the Ark and saw.—*Ex*.

—Outside newspapers are to be admitted into France without censorship after New Years Day.

—A quintette was the ante-Christmas present of an Ohio woman to her lord whom she loved.

—It is said that the Arkansas river is so low that a drove of cattle drank it dry at Fort Smith.

—Joe Jefferson, the inimitable Joseph, was married on Friday, in Chicago, to Miss Sarah Warren, of that city.

—A curious optical illusion was noticed in Lee county, Va., recently. Three suns seemed to rise at once.

—A negro in Mobile carries gracefully the cognomen Cui Bono. He was perhaps the real Bones o' the Minstrels.

—It is feared that St. Louis will soon be located two miles from the river, which is rapidly changing its course.

—Blondin fell and broke his arm in Germany recently, and he will owe to Cologne all the ill effects of the accident.

—On Friday last, thirteen newly married couples were at the Sherman House in Chicago, enjoying the mellow radiance of the full honeymoon.

—Gen. Sheridan kissed all the girls in a school of white children the other day, and shortly afterwards visited a colored school, but did not kiss the girls.

—Large quantities of spurious champagne are made in New York of saterne, brandy, rock candy, and some essences, to give bouquet to the mixture.

—Piers for the Chicago, Rock Island and Pacific Railroad bridge over the river at Des Moines are now up and ready for the superstructure, which will soon be placed in position.

—Beef sells in Cincinnati at fifteen cents per pound and butter at thirty-five. These prices are complained of by the daily papers as being an increase on account of the approach of Christmas.

—We think that Mr. Henry Buntly, of London, is the most tract-able of men. He has just sent nine tons of that class of literature, which excites, but does not cheer, to the Y. M. C. A. of Chicago.

—The Nashvillains are beginning to suffer for their disloyalty during the war. Andy J. is going to live there when he leaves the White House, and they have all the horrors of a year's anticipatory dread.

—A young man of our acquaintance, whose rural father is a little strict, wishes that some enemy would come and sow tares in his father's fields, because it would be so easy to get off on one occasionally.

—A Parisian physician has computed that six cigars a day will shorten a man's life five years. An exchange wants some clear headed mathematician to tell him how many must be taken to kill one on the spot.

—The weight of snow on a building on the river front, in Philadelphia, caused the front wall to fall down; fortunately no one was hurt, and an elegant and substantial building will soon replace the damaged structure.

—The Chinese vote for criminals eg. A fire took place in Helena, Montana; the Chinese residents immediately assembled to ballot for the offender, and the one receiving the highest number of votes was declared to be the criminal.

—The Montreal Postmaster has had the heads of all his clerks examined by a phrenologist, and discharged those who were pronounced unsuitable. This has caused some stir, but nothing to what it would if the heads of departments were all likewise served.

—A fish shanty was burned in Menominee, Wis., last week, and $1,800 worth of nets, a gold watch and a large amount of greenbacks were destroyed. In the same place a young man named George Caldwell, was killed by the accidental discharge of his own gun.

—Weston and the other pedestrians have subsided. They are disgusted probably because a hump back and a woman have outdone them. The Black Crook has run for fifteen months without stopping, and the Grand Duchess has done the same for thirteen weeks.

—An Oneida Indian captured some money at a store in Depere, Wis., the other day, and when the owner demanded restitution, he drew a knife and would have added murder to theft if another Oneida had not seized and disarmed him, getting his hand badly cut in so doing. Oneida number one went to jail.

—The New York *Evening Post* advises a conspicuous uniform for the bank messengers, so that if one be attacked every one will know that he is a bank messenger, and thus rendering it a piece of remarkable hardihood on the part of any one to attempt the robbery. Bright red coat and cap is suggested as an appropriate uniform.

—Mr. F. Poole, an Englishman of wealth, a geologist and an engineer, has, during the last eight years, paddled his own canoe more than twenty thousand miles, eighteen thousand of which were in British North America. His canoe is of birch bark, and is fifteen feet six inches in length, three feet six inches in width, weighs sixty pounds, and was made by Canadian Indians.

—A little girl named Whaley, who lived in Cincinnati, fell backwards into a tub of scalding water, near which she had been playing, on Thursday last. Her screams drew her mother quickly to her rescue, but the child was in a sort of flayed condition, the skin being scalded from her head, neck and shoulders, besides it is feared that some internal injuries from having swallowed some of the water.

—A Belgian was found wounded and frozen on board of a dredge in the Chicago river some days ago, and before medical assistance could be procured he expired. On an official investigation it transpired that he had been last seen in a saloon, and that he then had a pocket-book well filled with him. This was not on his corpse, and those hard worked men the Chicago police have arrested a young man as his robber and murderer, and he is now in jail.

—We recently, in crossing the bridge, heard a young woman laughing at some one for having said that "she hadn't ought to have" done so and so, and the said young woman derided this as a "grammatical error." To say that you hadn't ought to do anything is certainly an error, one not as bad as some others, but still a breach of grammar, but to call it a "grammatical error" is a thing which we can not unite with the same young woman in doing, simply because we do not think any error in grammar can be grammatical.

—We notice that many of our exchanges are recommending our street railways to adopt the European system of warming their cars with tin tubes filled with hot water. This is an excellent idea and it would be an immense advance towards comfort if adopted. For the longer routes hot water would become cold before the journey was completed, and for such we would suggest sand, which retains the heat longer, and which has almost altogether superceded hot water on the cars in Continental Europe. One of these tubes filled with sand remains warm for hours and is just as easily replenished as one

MISCELLANEOUS.

SECURE PROFITABLE INVESTMENT. THE **Central Pacific Railroad First Mortgage Thirty-Year Six Per Cent. Coupon Bonds, Principal and Interest Payable in Gold Coin,**

Represent the preferred claim upon one of the most important lines of communication in the world, as it is the sole link between the Pacific Coast and the Great Interior Basin, over which the immense overland travel must pass, and the MAIN TRUNK LINE ACROSS THE CONTINENT.

The road is now nearly completed from Sacramento to the richest Mining Regions in the Salt Lake Basin, and is being rapidly carried forward by the largest force of laborers ever employed by any Railroad Company on this continent. The natural, legitimate, commercial business of the road surpasses all previous expectation, and is profitable beyond parallel, even among the oldest roads in existence. The Earnings and Expenses for the quarter ending October 31, were as follows, IN GOLD:

Gross Earnings.	Operating Expenses.	Net Earnings.
$593,847.92	$102,088.61	$491,759.31

This result, however, would have been far greater but for the inability of wagon teams to forward the freight and passengers from the temporary terminus in the mountains.

The United States Government and the State and cities of California have so aided and fostered the Great Enterprise, that the Company will assume very light annual interest obligations, and will have the following ample resources at command for the construction:

Donations in Lands, Bonds, concessions, &c., (without lien.)	$12,800,000
Capital Stock, Net Earnings, etc., (no lien.)	11,000,000
Loans, (subordinate lien.)	3,000,000
U. S. Subsidy Bonds, 726 miles, (subordinate lien.)	25,517,000
First Mortgage Bonds	25,517,000
Resources, first 726 miles	$77,834,000

The FIRST MORTGAGE BONDS are in sums of $1,000 each, with semi-annual gold coupons attached, and are offered for sale, for the present, at 95 per cent. and accrued interest from July 1st, in currency, at which rate they yield nearly

Nine per cent. upon the Investment.

These Bonds, authorized by the Pacific Railroad Acts of Congress are issued only as the work progresses, and to the same extent only as the Bonds granted by the Government, and are the prior lien upon the whole valuable property furnished by the above Resources. They possess special assurances and advantages over other Corporate securities, and are destined to rank among THE BEST INVESTMENTS IN THE WORLD, from their unusual attractions of safety, soundness and profit.

CONVERSIONS OF GOVERNMENT SECURITIES Into Central Pacific FIRST MORTGAGE BONDS Now Realize for the Holders from Twelve to Eighteen per Cent. Advantage, WITH THE SAME RATE OF INTEREST.

Bonds can be obtained through the subscribers directly, or through responsible Banking agencies. Descriptive Pamphlets, Maps and information can be had at the office of the C. P. R. R. Co., No. 54 William Street, New York, and of **FISK & HATCH,** Bankers and Dealers in Government Securities, and Financial Agents of the C. P. R. R. Co., No. 5 Nassau street, New York. Also, of ROBINSON & BROS., And S. McCLEAN & CO., Pittsburgh. de3:b5 TUF

525 MILES OF THE **UNION PACIFIC RAILROAD,** Running West from Omaha, **ACROSS THE CONTINENT** ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the Western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six Per Cent. Bonds at the rate of $16,000 to $48,000 per mile, for which it takes a SECOND LIEN as security and receives payment to a large if not to the full extent of its claims in services. These Bonds are issued as each twenty mile section is finished, and after it has been examined by United States Commissioners and pronounced to be in all respects a first class road, thoroughly supplied with depots, repair shops, stations, and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government, and no more. Hon. E. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the Bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five millions have been paid in upon the work already done.

Earnings of the Company.

At present the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and, as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a GOVERNMENT WORK, built under the supervision of Government officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

First Mortgage Bonds

Are offered for the present at NINETY CENTS ON THE DOLLAR, they are the cheapest security in the market, being more than 15 per cent. lower than United States Stocks. They pay

Six Per Cent. in Gold,

Or OVER NINE PER CENT. upon the investment. Subscriptions will be received in Pittsburgh by HART, CAUGHEY & CO., Third and Wood streets. S. McCLEAN & CO., 75 Fourth street. JAMES T. BRADY & CO., And KRAMER & RAHM. And in New York at the Company's Office, No. 20 Nassau street, and by CONTINENTAL NATIONAL BANK, No. 7 Nassau street. CLARK, DODGE & CO., Bankers, No. 51 Wall street. JOHN J. CISCO & SON, Bankers, No. 33 Wall street. and by the Company's advertised Agents throughout the United States. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express.

A new PAMPHLET AND MAP, showing the Progress of the Work, Resources for Construction, and Value of Bonds, may be obtained at the Company's Offices, or of its advertised agents, or will be sent free on application.

OPERA HOUSE.—Marietta Ravel, the pleasing French artiste, made her first appearance at the Opera House last evening to a large and brilliant audience. M. Ravel, beyond doubt, is an artiste in her profession, such an one as is calculated to please the million. Her engagement commenced with the "French Spy," in which she appears in the three leading characters. The piece is an interesting one, and was well rendered, not only by M. Ravel, but by all the company. An unusually interesting bill will be presented to-night, and the house will doubtless be again crowded to its utmost capacity.

ACADEMY OF MUSIC.—A large and fashionable audience attended the Academy of Music, last evening, to witness the great Miltonian Tableaux, and all present were delighted with the grand and imposing spectacles presented. The exhibition will continue during the week, and no one should miss seeing it.

MASONIC HALL.—This evening, at Masonic Hall, will commence the great Panoramic Exhibition of the visions of St. John, as recorded in Revelations, entitled the "Apocalypse."

CITY HALL.—The Universalist Fair a City Hall was thronged last evening with the youth and beauty of the city. It will open to-night new attractions. The promenade which takes place each evening from ten to twelve o'clock is a decided success. It is conducted in the most orderly manner, and is certainly a delightful place to spend an evening.

THE RINK.—The Skating Rink appears to be the most popular place of amusement in the city. It is crowded nightly with the *elite* of the city. The manager is untiring in his efforts to render it a pleasant and agreeable place of amusement, and we think all who have favored the place with a visit will agree with us in saying his efforts have been crowned with success.

ASHLAND HALL.—To-morrow (Christmas) night a grand ball will be given at Ashland Hall. The Committee of Arrangements is determined to leave nothing undone that would in any way add to the enjoyment of the occasion, and the managers, Messrs. Meredith and Carroll, are accommodating and agreeable fellows, and will see to the comfort of guests.

Assault and Battery.—Mary Sands made information before Alderman Thomas, charging Patrick Hughes with assault and battery. The prosecutrix alleges that the defendant caught hold of her and attempted to take improper liberties with her. A warrant was issued, the defendant arrested and held to bail for his appearance at Court.

John Lewis made information before Alderman Thomas, charging Ella Flinn with assault and battery. The prosecutor alleges that the defendant used abusive language toward him and threw a bucket of water on him. The defendant was arrested and held to bail for a further hearing on Thursday next.

Larceny by Bailee.—Anna Young, a widow, who keeps a boarding house in Temperanceville, made information before Alderman McMasters, charging Samuel Glenn with larceny by bailee. She alleges that Glenn was one of her boarders, and that on Wednesday evening he borrowed a shirt and handkerchief for the purpose of attending a party, and, it appears, failed to return either himself or the property. A warrant was issued for his arrest.

Malicious Mischief.—James Hutchinson made information before Alderman McMasters, yesterday, charging Nancy Hargate with malicious mischief. The parties are neighbors and live at the copper works. He alleges that she broke down his gate, and when he attempted to put it up she threatened to blow his brains out. He also made information against her for surety of the peace. She was arrested and held for a hearing.

Committed.—Ed. Tiernan made information before Mayor McCarthy, charging John Hays with assault and battery. He was arrested and, after a hearing, committed to jail in default of the required bail for his appearance at Court.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, December 23, 1867.

Gold, though lower to-day, was steady at 132⅞ to 133⅛. Bonds at the London market experienced a slight advance, in sympathy with the better appreciation of the currency here. The transactions at the gold room are falling off considerably, and those who have sold out a few days ago show a disposition to await further developments and the action of Congress regarding new financial measures.

Money is quite abundant for stock and bond operators, and may lead to a sudden rise in some of the more solid securities and Government bonds; fancy shares and stocks of that description, are not much in favor at present, and are tending downward.

United States securities were somewhat irregular and lower at the first board, but rallied at the noon board, and closed fairly active at a trifle below Saturday's quotations. Seven Thirties are dull and lower. The investment demand of bonds is rather light, and is not likely to improve much before the January settlements are completed.

Stocks are firm, with some demand for the low priced dividend paying stocks. North Western, preferred, advanced from 66 to 70¼, but the common stock declined again from 64¾ to 58¼. A dividend is expected to be made during the coming season on this preferred stock, but the dullness of business will most likely cause a further postponement of dividends on the common stock. A better feeling prevails here since the rivers have become navigable again.

Closing New York quotations, received by Ph. R. Mertz, were as follows:

Gold, 133¼; 1881's, 112¾; 5-20s, 1862, 108; 1864, 105½; 1865, 105¼; Consols, 108; 10-40s, 101⅝; 7-30s, 104⅝.

—At a convention of railway officers, held at Lynchburg on the 10th inst., several reforms were adopted looking to the interests of the shareholders. Mr. Tate, president of the Memphis and Charleston road, stated:

That the passenger agent at New York informed that the Northern roads, and especially the Pennsylvania Central Railroad, were paying commissions over their counter to passengers as they purchased their tickets, and that the passenger agent at New York asks for authority to do the same. Mr. Tate proposed to meet this question at once by discontinuing the commission on tickets altogether sold over this line, and reduce the prices on tickets by this line to points reached by competing lines, so as to give the passengers the full benefit of the commissions now paid to outside agents, and, if necessary, to reduce passenger rates to such competing points to extremely low figures, and keep them there until Northern lines agree to stop this pernicious practice of paying commissions. Mr. Tate offered the following, which was adopted:

Resolved, That this convention of railroads are unalterably opposed to paying commissions to any outstanding side agents for the sale of tickets, and we hereby pledge ourselves to each other to have the same abated; that we believe the true policy to be adopted to effect that object is to reduce the prices on tickets to a point that will give the public the advantages of such commissions as other lines may at any time be paying to outside agents.

—The New York *Commercial* says of Government bonds: A considerable amount of bonds, which have been bought by our dealers in Europe, and held there subject to order, have been ordered to be shipped here. This will reduce the supply at London and Frankfort, and will, at the same time, relieve the scarcity of sixty-two's here. The advance of bonds at London to 72 is attributed to these shipments, and a further rise is anticipated among foreign dealers here.

—The Cincinnati *Gazette*, of Saturday, says: There is still an active demand for money, and the discount lines of bankers could be increased indefinitely, but they prefer to keep themselves in a strong position so as to be able to meet the heavy checking anticipated for payment of taxes. The demand for money is now principally from the pork packing interest and for the payment of taxes, although all branches of business come in for a share. Rates of interest are firm between bankers and their depositors at 9@12 per cent., and the offerings of good paper in the open market are in excess buyers at 15@18 per cent. Money on call commands 10@12 per cent. on government and other approved collaterals.

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, December 23, 1867.

CATTLE.

There was a pretty full supply of cattle on sale to-day, but with an improved demand for stockers, the market was fairly active, and as a general thing, prices were pretty well sustained. As is usual on the eve of the holidays the butchers did not buy as freely as they generally do, which is owing to the fact that poultry will for a time monopolize the market, and as a consequence, the demand for beef, pork and mutton is likely to be considerably restricted until after New Years Day has passed. Prime fat cattle, as will be seen by reference to the sales, sold at from 7¼@8¼c, and good butchers cattle may be quoted at 7@7½c. Stock cattle, for which there was an improved demand, there being quite a number of stock buyers in attendance, sold at from 4¼@5½c, as to quality and condition. The following is a pretty full report of all the sales:

Myers & Needy report having sold 75 head Ohio cattle at 5 to 6¾; 18 head Chicago stock for H. A. Merrick at 6 to 7¼; wholesaled 35 head Chicago stock to Simon Moses at 6¼; and sold 90 head stock cattle at 5 to 5½.

James McAllister sold 15 head for Dillon at 5; 20 head for Beam at 5 to 8¼; and 15 for Logan at 4¾ to 9.

Hazlewood & Blackstock report having retailed 21 head of Belmont Co., Ohio, cattle for Chas. Shomaker at 5 to 7; 23 head for Farnum at 4 to 6; and 8 head on their own account at 6 to 8¾.

L. Rothchilds sold 35 head at 6 to 7¾; Kraus & Haas, 60 head at 5 to 7¼. Stakely & Co. 17 at 3 to 7.

Paxton wholesaled 10 head Washington Co., Penna., cattle at 6¼. E. Katz reports having sold 22 head scalawags at 3¼ to 5.

Greenwald & Kahn retailed 96 head at 5¼ to 8. Marks & Trauman sold 36 head Ohio cattle at 7¾ to 7¾; 9 head Penna cattle at 5¼, and 76 head from Chicago at 5¼ to 7¼.

L. Shamberg retailed 15 head for Sellers at 4 to 6¼; 9 for Randolph at 4 to 5; and 18 head on his own account at 3 to 5¾.

Smith & Talmage sold 19 head on commission at 3 to 6. Glass, Lafferty & Co. retailed 40 on commission at 3¼ to 6¾.

N. Carr sold 10 head on commission at 4@5, and 22 head on his own account at 4½ to 6½.

Hedges & Taylor sold 19 head for Keener at 4 to 6¾; 22 for Henderson at an average of 5¼, and 20 for Neale at 5 to 5¼.

M. Verner sold 19 head Allegheny Co. cattle at 5 to 6¼.

SHEEP.

There was an exceedingly light supply of Sheep on sale this week, the smallest in number, probably, during any preceding week this year, and, as a consequence, the market was firm, and prime fat, mutton Sheep brought an advance. The following sales were reported:

Peter Sheitermantel sold 94 head at from $2¼ to $5¼ per head, as to quality.

Landers & Co. had 33 head—sold 10 head of the best at $5¼ per head—the balance brought about $3.

John McAllister had 100 head scalawags—sold 51 head at $1,60 per head—offered $1,30 for the balance.

HOGS.

The market for this class of stock was scarcely as active as it was this day week, the retail demand being somewhat restricted, and there was little or nothing done wholesale. In a retail way, quotations may be fairly given at 6¼ to 7c for fair to good, and 7¼ to 8¼ for prime to extra.

Stakely & Co. sold 23 at 6¾ to 7¼.

Rothchilds & Byers 200 at 6¼ to 8¼.

Glass, Lafferty & Co. 14 at 7,30, and expected to get 7 for the balance.

Emerick, Schwartz & Co. report having retailed 200 head since the date of our last report, at 6¼ to 8.

New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, December 23.—The Dry Goods market continues dull and depressed, with no essential change except in American Prints, which are reduced to 12 cents; other styles steady, however, at 12½c for all the best makes except Cocheco, which is still held at 13½c. The Nassau Prints are selling at 11c, which is relatively lower. Woolen goods are exceedingly dull, and prices rule very low. Foreign goods of all kinds are nominal.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, December 23, 1867.

The general markets continue dull and neglected, and as the demand for almost everything seems to be restricted mainly to supplying immediate wants, there are but few round lot sales to report, and prices are without material change.

GRAIN—Wheat is quiet and unchanged at $2,50@2,55 for Red Winter, and $2,60@2,65 for White. Barley is in steady demand at $1,60@1,65 for Spring and Fall. Oats continue dull but unchanged at 65@66c, on track, and 68@70, in store. New Corn is in demand at $1,05@1,10 for Ear and Shelled; old may be quoted at $1,15@1,18. Rye is dull at $1,35@1,40.

FLOUR—There is a fair local demand for Flour, and while the market is steady and moderately active, prices are without quotable change. We continue to quote at $10@10,75 for Spring; $11,75@12,50 for Winter, and $14,50@15,50 for fancy brands. Rye Flour, $8,50 per bbl, and Buckwheat $5,25@5,50 per cwt.

BACON—Is quiet but steady at 12c for Shoulders; 13½c for Ribbed Sides, and 18c for Sugar Cured Hams.

LARD—Is quoted at 13¼@13½c.

LARD OIL—Is still quoted by manufacturers at 85@90c for No. 2, and $1,08@1,10 for No. 1.

HAY—Is steady, with regular sales from country wagons at $18@24, for common to prime Timothy.

MILL FEED—Dull and in better supply; sales of Middlings at $2,25@2,83, and Seconds at $1.75@1,80. Bran is quoted at $1,60@1,65.

APPLES—The demand continues active, and the cold weather retards shipments; we continue to quote at $3@4½ per bbl.

POTATOES—There is an improved demand, and while the market is fairly active, prices are unchanged; small sales at $1,05@1,10 per bushel.

DRIED FRUIT—Continues dull but unchanged; small sales at 7¼@8½c for Apples, and 11@12c for Peaches.

BUTTER—Prime to choice Roll Butter is in demand and shade higher, and may be quoted at 40@42c.

CHEESE—Sales of Hamburg at 15@16c, and Factory and Goshen at 17@18c.

EGGS—Still held at 35c.

BEANS—Dull at $3@3,25.

HOMINY—Dull at $7@7,50.

CRANBERRIES—Dull at $12@13.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, December 23, 1867.

CRUDE—There is no improvement to note in the demand for crude, and the market continues dull and depressed with a dropping tendency. We have but a single sale to report, 500 bbls, to arrive in bulk cars, at 6½c—a decline compared with the last sale, which was reported at 7c. Quotations may now be fairly given at 6½c for spot oil, and 7¼@7½c for March and April, seller's option. The river is open as far up as Oil City, but it was full of heavy floating ice to-day, and as a consequence, no oil will be started until it runs out; and it is probable that the water will then be too low, as there were only thirty inches at that point to-day. Private advices report a considerable destruction of property at and in the neighborhood of Oil City by the ice, consisting mainly of empty oil boats—so far as we could learn, there were but few loaded boats there, the most of them having previously been pumped and shipped down by rail.

REFINED—There was not a single sale of bonded oil reported to-day, and the market continues dull and depressed, although it was rumored that there was a firmer feeling in Philadelphia. On Saturday evening there was a sale of 2000 bbls for January, at 23½c, and 1000 bbls for December, at 21½c. To-day, quotations were given at 22c for spot oil; 21½c for first half of January, and 23c for last half of same month. There is some little trade in free oil, but the transactions are unimportant, and there are no established prices.

RIVER NEWS.

The river was still rising steadily at this point last evening with fourteen and half feet by the Monongahela, and fifteen feet by the Allegheny marks. The ice in the latter stream commenced to pass here about three o'clock yesterday morning, and it continued without cessation all day. The wind changed around to the west on Sunday night, since which time the weather has been cold and freezing. The rise, thus far, has been in the Monongahela—but thirty inches reported in the channel of the Allegheny at Oil City yesterday afternoon.

The J. N. McCullough got in from Cincinnati about twelve o'clock on Sunday night. She had an excellent trip, and just got in in time to escape from the Allegheny ice.

The towboat Dexter, lying at Manchester, was struck by a heavy cake of ice on Sunday night and sunk. According to last accounts, the water was up to the top of the capstan forward and over the water wheel aft. She was insured against fire only.

The towboat Hyena, moored alongside of the the Dexter, lost one of her barges of coal in the same way. These are the only serious accidents thus far reported as having been caused by the break up. At Oil City quite a number of empty oil boats were carried off—some of them will doubtless be picked up, but the greatest proportion, we fear, will be destroyed and cut to pieces by the ice.

The towboat Jas. Gilmore, on her recent down trip, sunk a flat of coal on the "Hump" at the head of Captina, and pilots would do well to give it a wide berth. For this information we are indebted to Mr. Hall, one of the pilots of the J. N. McCullough.

Nearly all the coal tugs were busily engaged yesterday in getting their tows ready, and they will be ready to leave as soon as the ice runs out. It is estimated that over three millions of bushels will be taken by the fleet on the present rise.

The Argosy, Captain Vandergrift, will positively take her departure to-day for New Orleans as soon as the ice runs out, and the same is true of the Selma, Captain Rogers. These are both good boats.

The Kate Robinson, Capt. Robt. Robinson will be off for Cincinnati and Louisville today, and she will be followed to-morrow by the Maggie Hays, Captain Barney Martin.

The Mary Davage and barges, in command of Captain Hugh Campbell, will be off for New Orleans to-day as soon as the ice runs out.

The Lorena, Captain Sam Shuman, is announced for St. Louis forthwith.

The Lulia is on her way up the river from Mount Vernon with a cargo of Wheat for Pittsburgh.

The steamer Anna White and Importer have gone into winter quarters at Hamburg, Illinois, the Crocket at Church's Landing and the Bridgeport at Quincy. The Isabella has found a safe harbor in the Missouri. The Ben Johnson was, when last heard from, still in the gorge at Arago, and not in a very safe or desirable position.

The United States Inspectors, W. C. Flanders and G. K. Whitmore, having investigated the explosion of the Ouachita steamer Idahoe, which occurred at the New Orleans levee, November 26, are forced to the conclusion that the explosion was the result of neglect on the part of the engineer in charge, Augustus Reynaud, and that, while endeavoring to be lenient and forbearing to him, to be just to the sufferers at his hands, and in order to protect the traveling public in future, we have revoked for life the license of Augustus Reynaud as an engineer of a steamer.

The Wananita, from New Orleans for Cincinnati, passed Vicksburg on the 16th inst.

LOUISVILLE, December 20.—The river has fallen 15 inches during the past 24 hours, and is now 6 feet in the canal and 3 feet scant down the Indian chute. The J. R. Hoyle has just arrived with the barge of the steamer Leclaire and a portion of her cargo, which is being stored in Resmer & Co's wharfboat. The Argonaut took the freight shipped from Louisville, and a portion of the other freight of the Leclaire. This boat is likely to prove a total loss, as the river has risen to the cabin floor. All freight on deck was saved. The Golden Era, Cincinnati to New Orleans, passed down to-day. A United States snag boat will be launched this afternoon at Jones' ship yard. A steady, and at times, quite heavy rain fell all night. Slowly rising, with indications of more rain. Five feet water are reported over French Island yesterday morning.

CAIRO December 20.—The Garrett came in from below, she struck a snag and goes on the docks here. The Louisiana, Ida Stockdale, Peter Balen and Deer Lodge, came in from St. Louis. The Ned Tracy was sunk and has broken to pieces, a total wreck. The Nightingale is below Chester, badly crippled, with both rudders gone. Twenty boats are aground or tied up between here and St. Louis. There is scant three feet water to St. Louis. The Lizzie Hopkins, Liberty No. 2 and Starlight are aground in the Mississippi. The Ida Stockdale reships on the Mepham, which clears in the morning. The Rubicon, from Vicksburg, stops here. The Bee brought out the Kellogg. The Mayflower passed down to White river. River stationary and clear this morning. Business good.

ST. LOUIS, December 20.—Weather remarkably mild, and river rising slowly. The Minnie arrived from Cairo, coming up in the usual time. She reports thirty inches at Hat Island, the lowest water. Captain Lloyd Bell has taken command of the Arabian and leaves to-day for Fort Gibson, Arkansas River. A rise of one or two feet hence to Cairo is anticipated. Report has reached here, by a man from Chester, that the Ned Tracy sunk near there, her stern lying ten feet under water. She left here over a week ago for Memphis, with a valuable cargo, and had one hundred tons at Block's, but got off. She was formerly the D. A. January, and was owned by John G. Copelin, valued at $28,000, and insured for $15,000 in Cincinnati offices. The report of her sinking is not confirmed by her owner, and there is some doubt about it.

Several deck passengers on the Delaware, on her late trip, sued the Captain and owners for not letting them have the use of a small boat to go ashore to procure food while the boat was aground. The result of the suit has not yet been given.

We learn that Capt. Perry McNeely, who has recently been engaged in removing obstructions to navigation on the Ohio river, has taken a snag from the bar opposite Aurora. This snag has been there for thirty years, and is always dangerous during high water, but during low water it is plainly visible. Capt. McN. uses a diving bell in removing such objects.

A letter from Mr. J. D. Johnston to Olmstead & O'Connor, of Louisville, under date of Pittsburgh, December 17, says:

There was a good deal of loss by the late break up in the Monongahela River. At lock No. 2 there is large quantity of coal loaded, which was saved by interested parties employing a steamer to break the ice for seven miles above the dam.

In pool No. 3 the Pittsburgh Mining Coal Company lost four boats, 80,000 bushels; Dippold one small boat and one barge, 25,000 bushels. The towboat Lark, belonging to the Coal Bluff Company, was sunk, and it will an expensive job to raise her; no insurance. Farrow, Gumbert & Co., in pool No. 2 lost one boat, 20,000 bushels. In pool No. 1, Fawcett & Co. lost one small boat, 12,000 bushels.

The towboat Fearless, on her way to Cincinnati, stuck two barges at Brunot Island. The towboat Mary Ann, belonging to Horner, Wood & Co., is hard aground with several barges at Merriman. The Judge Warner, three loaded barges at Lagrande and some at Wellsburg, are reported sunk. In pool No. 4 there are several reported losses, but the names of the parties are not given.

River Items.

ORDINANCES.

A SUPPLEMENT TO AN ORDINANCE passed the 4th day of November, A. D. 1867, entitled "An Ordinance relative to the laying of Gas-pipe."

SECTION 1. Be it ordained and enacted by the Burgess and Town Council of the Borough of Lawrenceville, and it is hereby enacted by the authority of the same, That no other Gas Company than the Lawrenceville Gas Company shall have the right or privilege of introducing gas into said borough in competition with the said Lawrenceville Gas Company: Provided, the said Lawrenceville Gas Company will furnish gas to the said borough, and the inhabitants thereof, at as low rates as at all times as those now charged, or hereafter to be charged, by other companies similarly situated; and provided, further, That the said Lawrenceville Gas Company shall commence and prosecute operations within six months from the passage of this ordinance.

SECTION 2. That when any street, lane or alley of said borough shall be opened by the said Gas Company ... distance more than ... in length 400 feet for the purpose of laying down, relaying and repairing the pipes as aforesaid, the same shall not be kept open or obstructed for an unnecessary time, but shall be enclosed and repaired, and the rubbish and dirt occasioned by the opening of any street, lane or alley as aforesaid, shall be promptly and speedily removed by the said Gas Company, at its own proper cost and charges.

SECTION 3. In the opening of any street, lane or alley as aforesaid, the said Gas Company shall use all necessary precautions to protect the lives and property of the citizens from accident and injury, and at night there are to be erected all necessary barricades to prevent all such accidents and damage, and shall not allow any part of its works or apparatus not necessary for the preparation of gas to be so situated as to endanger the lives or property of any citizen or become a public nuisance.

SECTION 4. That for any violation of the provisions of this ordinance, the said Gas Company shall, upon conviction thereof before any Justice of the Peace of the county of Allegheny, forfeit and pay the sum of twenty-five dollars, and for every hour's continuation thereof after such conviction, the further sum of fifty dollars; provided, that the recovery of any such fine or fines shall not bar or interfere with the right of said borough, or any individual or individuals to obtain a civil action for any damages sustained by any violation of the provisions of this ordinance by the said Gas Company. de5

AN ORDINANCE for the Grading, Paving and Setting with Curb of Church street, from the intersection of Lawson street southwardly, to the Borough line of the Borough of Lawrenceville.

SECTION 1. *Be it ordained and enacted by the Burgess and Town Council of the Borough of Lawrenceville, and it is hereby enacted by the authority of the same*, That the Street Committee, in connection with the Borough Regulator, be and they are hereby authorized and empowered to advertise for proposals for the grading paving and setting with curb that portion of Church street extending from the intersection of said street with Lawson street, southwardly to the line of the borough, and to contract therefor with the lowest and best bidder, at their discretion.

SECTION 2. That the expense of grading said street shall be paid out of the Borough treasury as provided for by existing ordinances, and for the purpose of defraying the cost and expenses of paving and curbing said street, there be and there is hereby levied a special tax to be equally assessed on the property bounding and abutting on said street, in proportion to the feet front thereof, and comprised as bounding and abutting as aforesaid.

SECTION 3. That as soon as the cost and expenses of paving and curbing said street is fully ascertained by the Borough Regulator, it shall be his duty to assess and apportion the same among the several lot-holders owning property on said street according to their number of feet fronted, and thereupon to notify the owners thereof, or the owner or owners of said lot or lots respectively, or to the agents or guardians of such owner, and make return of each assessment to the Treasurer of said borough.

SECTION 4. That it shall be the duty of the Treasurer of said Borough, on the return so made, to cause notice to be given to the parties so made, that unless the assessments have been made as aforesaid are paid to him in thirty days from the date of such notice, he will proceed to collect the same in the manner provided by law.
